I predict that this lightshow will be the most enduring memory of the 2010 Games for MOST Vancouverites ... just as the nightly fireworks as the enduring memory of Expo '86....

Leni Schwendinger (Light Projects LTD) Dear fans and friends - this project is astonishing in its scope and intent. It addresses visual delight and global participation in the freshest way I have seen. A strange amalgam of video game and real-life... in a working harbor setting could only be imagined before. I am sure that everyone of you will want to create a light pattern with the interface. I started - but was so stunned by the possibilities that I will get back to it when I have a good 30 minutes to work on it.

How many of you have designed light art of this magnitude? I can tell you that it is one of the greatest things I've ever experienced

http://radar.planetizen.com/node/13385?prev=http%3A%2F%2Fradar.planetizen.com

You can render the intricate vaulting system of a Gothic cathedral or the geometric tessellation of a Persian mosque; inscribe cryptic constellations onto passing clouds; or cultivate a photonic bouquet for Valentine's Day. Perhaps someone might want to recreate a childhood memory of searchlights that once beckoned them to a

glamorous Hollywood movie premier while another might one to evoke the torched nighttime skies of London during the Blitz.

http://www.miss604.com/2010/02/vancouver-2010-day-14-recap.html We took the water taxi across False Creek and walked home through the West End, under the soft blue glow of Vectorial Elevation. It's one of the things I'll miss most around the city when the Games are gone.

http://www.trendhunter.com/trends/vectorial-elevation-vancouver If you want to contribute to the majesty and beauty of the Winter Olympics, Vectorial Elevation Vancouver is the way to go. Vectorial Elevation is a crowdsourced light show that is way too epic for words. Public art is always an awesome idea. Vectorial Elevation Vancouver is a wonderful way to be a part of the Winter Olympics.

1497 This is for a friend who needs to have cocktail parties so we can see the vista perfectly!!

2795 It's like getting to blow bubbles in the sky when you were a kid....

3390 Glad I lived long enough to see such a democratic art display

3425 This is like photonic spirograph.

4140 An olympic version of aurora borealis.

5291 from west end - love the lights... watch them every night from my apartment! 8069 I live a block away, I love the lights! No problems with them being bright! 8293 This is an amazing art project and it is exciting to be able to participate in the project by submitting a design. Thank you Rafael Lozano-Hemmer for designing such a wonderful art piece. And thank you to the city of Vancouver for all of the public art projects around the city! Go 2010!

10409 This is a great public art idea, my design reflects the coming together of so many different people from so many different cultures and traditions.

14963 Stellar burst from Vanier Park by an amateur astronomer who loves this temporary art exhibit even though it uses the sky as a canvas. Corporations please do not get ideas of using searchlights to draw attention to your business - I will demolish you as I did Famous Players when they tried it in Langley. Clear skies - from "the notorious RASCal" as billed by CBC at a partial solar eclipse event! 16106 From Birmingham, Alabama, I am pleased to have the chance to participate in this interactive art design project. I think it is an innovative way to unify world citizens through art. I look forward to similar projects of this nature.

21234 I truly enjoyed being able to particpate in this unique work of public art over the skies of beautiful Vancouver, British Columbia. There is something very unique and Zen in this compilation of artistic creativity and I am pleased to have added a small piece to this interactive artwork.

9395 From Euclid in Alexandria, comments: Geometry

9778 your shrewd cryptological minds will have noticed i'm sure that we've devised a simple alphabetical code where lights are ON according to their position in the alphabet; to wit that all the common letters of SARAH and JASON are left ON (1,8,10,14,15,18 & 19). And the focal point angle is of course based on the conjunction of your astrological signs. Happy Valentines!

3596 from W Hollywood From the Museum View you should be able to make out the "5 Rings" spirit above the city.

3896 from utah 'm so excited for the winter Olympics to start! I hope the friendly Western Canadian personality of Vancouver shines through!

5572 I made you one even though you hate the olympics

6784 In the spirit of the five olympic rings there ar 5 groups of lights the cross over key locations of Vancouver.

9944 Sending you a little piece of the cultural Olympiad. This interactive digital installation is pretty much right on top of our boat. Hope shirley is feeling better soon.

17491 I feels honored to be actually (kind of) a part of these tremendous Olympic Games 2010 @Vancouver! Greetings from Munich, Germany to Vancouver, my beloved friends and all the sports enthusiats from all over the world! Anji,

1252 Well, if this party is gonna cost \$3B, I'm going to have some fun and share it with you! Xoxox

3409 A tribute to Granville Island... may they wisely choose to return to free parking after the Olympics!

3426 It won't look like it from the ground, but the lights spell the letter "B", for Bloedel Conservatory, which is slated for closing by "Vision Vancouver", a misnomer if ever there was one. Google "Friends of the Bloedel". It would be a travesty to close this little gem of a place.

3790 Restore arts funding after the Olympics!
